

So that you can fully enjoy Hokkaido, it is essential that you understand and obey Japanese traffic laws.

Regulatory signs

Make sure you come to a complete stop at stop signs and railway crossings.

Stop signs are in the shape of an inverted triangle. When you approach a stop sign at an intersection, please be aware that there might not be stop signs for traffic perpendicular to you. This means that such traffic may approach at high speeds. If your failure to stop at the intersection results in a crash, you'll be at fault. Please be sure to stop at stop signs.

Each country's stop sign

Japan	Taiwan	South Korea
United Nations	Hong Kong	Hong Kong

Caution!

A flashing red signal indicates "Stop".

Major accidents are increasing on one-way streets!

In downtown areas and in residential areas, there are many one-way streets. Be sure to check traffic signs to avoid accidents.

Designated direction only

Closed to cars	No parking	No parking/stopping	Slow	Stop
Wrong way	No crossing by vehicles	No U-turn	No passing	No passing
One way	One way	One way	One way	One way

Caution signs

Slippery road	Falling rocks	Lane reduced	Bumpy road	Road construction	Steep up-slope	Steep down-slope	School zone	Traffic signal
Merging traffic	Road narrowed ahead	Two-way traffic	Railroad crossing	Crosswind	Animal crossing	Other danger	Other danger	Other danger

Direction signs

Parking allowed	Stopping allowed	Right-of-way	Center line	Safety zone	Pedestrian crossing	Bike crossing lane

Traffic violations

Stiff penalties are imposed on those who drive under the influence of alcohol. You'll be subject to penalties if you use a cell-phone while driving, exceed the speed limit, or park illegally.

Types of fuel (gasoline)

Ultimate unleaded (High octane)	Unleaded (Regular)	Diesel

※Depending on the gas station, "Ultimate unleaded" may be called "Plus unleaded," "Super unleaded," or "Premium unleaded."

Official Website

This is the official website for the Michi-no-Ekis in Hokkaido. We invite you to visit it.

The website is also accessible from smartphones.

Please answer the questionnaire

Would you complete this survey to help improve the Michi-no-Ekis in Hokkaido?

The website is also accessible from smartphones.

About MapCode

MapCode enables accurate address pinpointing using a 6- to 10-digit number developed by DENSO. It is mainly for use in car navigation systems.

Touch the map code button.

Enter the map code number.

To start the guidance, please choose a route.
